Re: Recommendation Letter for PRC Building Services Pty Ltd

To Whom It May Concern:

I have worked with David Beer on several projects, two of these projects were the Rottnest Island and Murdoch University asbestos roof sheet removal and replacement works. On both occasions I have found David and PRC employees both honest and reliable in regard to completing the requirements of the projects whilst maintaining a high standard of safety and workmanship. During the process of Client scope change David was able to show value for money reflected in his methodology and transparent variation breakdown costings. David provided customer satisfaction by being time efficient and maintaining prompt, honest liaison between all concerned parties.

I have no hesitation recommending PRC for future works within their abilities.

If you would like additional information, you can telephone me on 08 9311 2139.

Yours sincerely,

Ian Bohm
